DESIGN YOUR HOUSE DESIGN YOUR SWITCHES.

ESCULT SWITCHES

A journey marks a start and a start is thought at first. The start of our journey began with the thought of adding a class to the monotonic conventional methods. And we strive to do the same over years. Plus, our concept is design. A home is not always just comfort. It is much more than that. It is an art for the one who stays in it. That art definitely doesn't deserve monotony be it in switches. That's where our journey began. To give you the best yet classy switches, so that your house remains your art.

We cover a huge variety of colors and designs in our range of smart switches backed up with top-notch technology. There is nothing compared to the comfort of homes and we strive to enhance the comfort even more with our range of smart switches.

Feel Luxury | Live Luxury

Designing the home is an art, and so are your house's switches. With Escult smart switches you can add comfort and elegance both in your design.

The ultimate control lies in just one touch. Control a multitude of appliances with just one click with these smart switches

Key Features:

- Control your appliances from where you are with Wifi. It's the age of wireless connectivity indeed.
- Covers many designs that include matte, sandy, brush, mirror, and glossy. So you can flaunt off your style.
- Comes in a wide range of colors that includes Gold, Rose Gold, Carbon Black, Copper, Bronze, Zink Blue, Silver, Gray, 24C Gold, and 24C Rose Gold
- Why get up when you can control all your devices from your mobile through an app. Gives you comfort like no other.

Aria Deux

You can try a whole range of designs. So level up your house with a variety of designs for the frame, fascia, and even buttons.

-Bored of a regular matt finish, go on and try a sandy one.

-Escult provides you a variety of designs for front fascia, that includes mirror glossy, brushed matt and sand matt.

"Our design, your choice."

Codazo Collection

(Classic push button collection with KNX)

Unlike all the others, it's a push-button, so the switch stands out from the rest of the design, quite significantly.

Key Features:

KNX Communication

Two different sizes that can fit in any Indian standard back-boxes from 2M and 8M.

Up to 30 models available with different sets of switches, dimmers, fan controllers and accessories etc.

10 different colors, 3 texture finishes for each part like back frame, front fascia and even buttons. So more than 900 combinations can be made from this as per your interior look.

Codazo Seis

From lighting your house to controlling it all. There's nothing these pushbuttons can't do for you.

Plus, they have an exotic style.
